# Mnidoons Giizes, Little Spirit Moon

The thirteenth moon of Creation is Blue Moon or Little Spirit Moon and the Moon of December.

During this time, we receive instructions on the healing powers of the universe and transform into our own vision of the truth. It is a process that can take up to three months and can be considered a Spiritual Journey.

This Moon teaches us to take the knowledge we have received from the universe and apply it to our own individual role. Take this time to reflect on the past year, and what you have learned.
