MANIDOO GIIZES

Spirit Moon

The first moon of Creation is Spirit Moon. It is manifested through the Northern Lights and is a time to honour the silence and realize our place within all of Great Mystery's creatures.

Spirit Moon teaches us to take time for self-reflection to look at how we treat ourselves and others, how we understand our feelings, and our connections to the world around us.

In the light of this moon, we purify ourselves and prepare for the coming seasons.
